THE preceding figure is given to represent the in-SENSIBLE PERSPIRATION It is the great Evacuation e impurities of the body. It will be noticed that a thick cloudy mist issues from all p ints of the surface, which indicates that this perspiration flows uninterruptedly when we are in health, but ceases when we are sick .- Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and dis poses by this means, of nearly all the impurities within . The language of Scripture is, "in the BLOOD is the Life." If it ever becomes impure, it may be traced d Thus we see, all that is necessary when the blood is stagand its vicinity, for the liberal patronage he has nant, or infected, is to open the pores, and it relieves i self from all impurity INSTANTLY. Its own heat and vitality are sufficient, without one particle of medicine, exto his profession, to merit the support of the comcept to open the pores upon the surface. Thus we see he folly of taking so much internal remedies. All practitioners, however, direct their efforts to restore the Insensible Perspiration. The Thompsonian, for instance, Botanic Medicines, of his own manufacture, such strams, the Hydropathist shrouds us in wet blankets, the Homopathist deals out infinitissimals, the Pholopathist bleeds and doses us with mercury, and the blustering Quack gorges us with pills, pills, pills, pills.

To give some idea of the amount of the Insensible Perspiration, we will state that the learned Dr. Lewenhock scertained that five-eights of all we receive into the stomach, passed off by this means. In other words, if we

ter, and all diseases of the Skin, Itch, Scrofula, all eat and drink eight pounds per day, we evacuate five pounds of it by the Insensible Perspiration. This is none other than the used up particles of the ood, and other juices giving place to the new and fresh ones. To check this, therefore, is to retain in the sys- and convenient lot of Stables, fully equal, if not tues that have never been excelled by any series of By a sudden transition from heat to cold, the pores are

SANDS:—I deem it an act of justice to myself and the community at large, to relate the following fact, which occurred in our neighborhood in the latter part of July last. Jane C-, a young girl aged fourteen years was afflicted with an immense sore on the middle of her back, which defied all the treatment of medical skill. As she was a friend of our family I employed all the [30, 1846 20-tf] means in my power endeavoring to relieve her, but in vain. At last some person mentioned to me your Sarsapa rilla, and I immediately procured two bottles of Messrs. Mosely & Tucker, your Agents, in this city, which I gave to her. I called to see her the next day and she told me she had taken two doses and felt very much releived. aughed immoderately at this, but she said it was really so, and, gentlemen, in a word, in two weeks from the time she commenced using it, there was neither sign nor appearance of where the sore had been.
